

**Amendments to the Claims:**

This listing of claims will replace all prior versions, and listings, of claims in the application.

Listing of Claims:

1. (currently amended) A display page having pockets ~~fre~~ for accepting a plurality of photographs, comprising:

a semi-rigid to rigid page; and

at least one pocket attached to the page, the pocket being deep enough to hold the plurality of photographs and including an at least partially transparent front wall connected to at least one side wall and a ~~window~~ notched out portion disposed adjacent an opening of the pocket on the front wall, and a flap disposed proximate the opening of the pocket and being moveable between an open position and a closed position covering the opening.

2. (currently amended) ~~The display page of claim 1~~ A display page having pockets for accepting a plurality of photographs, comprising:

a semi-rigid to rigid page; and

at least one pocket attached to the page, the pocket being deep enough to hold the plurality of photographs and including an at least partially transparent front wall connected to at least one side wall and a window disposed adjacent an opening of the pocket on the front wall, and a flap disposed proximate the opening of the pocket and being moveable between an open position and a closed position covering the opening, wherein the flap covers the window.

3. (currently amended) ~~The display page of claim 1~~ A display page having pockets for accepting a plurality of photographs, comprising:

a semi-rigid to rigid page; and  
at least one pocket attached to the page, the pocket being deep enough to hold the plurality of photographs and including an at least partially transparent front wall connected to at least one side wall and a window disposed adjacent an opening of the pocket on the front wall, and a flap disposed proximate the opening of the pocket and being moveable between an open position and a closed position covering the opening, wherein the pocket is attached to the page by at least one flange extending from the at least one side wall.

4. (original) The display page of claim 1, further including a locking mechanism adapted to retain the flap in the closed position.

5. (original) The display page of claim 4, wherein at least one of a first and a second portion of the locking mechanism is disposed on the flap.

6. (currently amended) The display page of claim 1, wherein the ~~window~~ notched out portion is disposed over a majority of the front wall of the pocket.

7. (currently amended) The display page of claim 1, wherein the ~~window~~ notched out portion is disposed over a minority of the front wall of the pocket.

8. (original) The display page of claim 1, wherein the opening of the pocket is disposed proximate a side edge of the display page.

9. (original) The display page of claim 1, wherein the opening of the pocket is disposed proximate a top edge of the display page.

10. (original) The display page of claim 1, further including at least a second pocket on a side of the page opposite the side to which the at least one pocket is attached.

11. (original) A display page having pockets, comprising:  
a semi-rigid to rigid page; and  
at least one pocket attached to the page by at least one flange extending from at least one side wall of the pocket, wherein the pocket is adapted to hold media storage items and includes an at least partially transparent front wall connected to the at least one side wall, a window disposed adjacent an opening of the pocket on the front wall, and a flap disposed proximate the opening of the pocket and being moveable between an open position and a closed position covering the opening.

12. (original) The display page of claim 11, wherein the flap covers the window.

13. (original) The display page of claim 11, further including a locking mechanism adapted to retain the flap in the closed position.

14. (original) The display page of claim 13, wherein at least one of a first and a second portion of the locking mechanism is disposed on the flap.

15. (original) The display page of claim 11, wherein the window is disposed over a majority of the front wall of the pocket.

16. (original) The display page of claim 11, wherein the window is disposed over a minority of the front wall of the pocket.

17. (original) The display page of claim 11, wherein the opening of the pocket is disposed proximate a side edge of the display page.

18. (original) The display page of claim 11, wherein the opening of the pocket is disposed proximate a top edge of the display page.

19. (original) The display page of claim 11, further including at least a second pocket on a side of the page opposite the side to which the at least one pocket is attached.

20. (original) A display page having pockets, comprising:  
a semi-rigid to rigid page having a first side and a second side;

a first pocket attached to the first side of the page, the first pocket being deep enough to hold a plurality of photographs and including an at least partially transparent front wall connected to at least one side wall, and a window disposed near an opening of the pocket on the front wall, the opening and window being covered by a flap disposed proximate the opening of the pocket, the flap being moveable between an open position and a closed position; and

a second pocket attached to the second side of the page, the second pocket being deep enough to hold at least one media storage device, the second pocket includes an opening that is covered by a flap that is moveable between an open position and a closed position.

21. (original) The display page of claim 20, wherein the at least one media storage device are negatives of the photographs.

22. (original) The display page of claim 20, wherein the at least one media storage device is one or more compact disks.
